

Rodrigo Horvilleur

FULL-STACK SOFTWARE ENGINEER · REACT · NODE.JS · POSTGRESQL

rodrixdere@gmail.com · +506 6026-1200 · Curridabat, San José, CR · rodrixdere.com · github.com/rodrixdere

PROFILE

Full-Stack Software Engineer who shipped a production platform serving 150 daily active users — solo, in under 8 weeks. Owns the full development lifecycle: requirements, architecture, build, deploy, and maintenance. Writes clean, documented code and communicates clearly with non-technical stakeholders. Advanced English (C1+). Available immediately.

TECHNICAL SKILLS

LANGUAGES	JavaScript (ES6+) · TypeScript · Java · C++ · HTML5 · CSS3
FRONTEND	React.js · Vite · Tailwind CSS · Responsive Design
BACKEND	Node.js · Express.js · RESTful API Design · JWT · bcrypt
DATABASES	PostgreSQL · Supabase · SQL · NoSQL
DEVOPS/TOOLS	Git · GitHub · Vercel · Railway · Linux
PRACTICES	Agile · Scrum · RESTful Architecture · Technical Documentation · CI/CD

EXPERIENCE

Fundación Curridabat

Jan 2026 – Mar 2026

Full-Stack Software Engineer

- Delivered a production-ready platform in under 8 weeks — a scope originally estimated at 3 months — as the sole engineer with no team support.
- Platform reached 150 daily active users post-launch, supporting 3 distinct user roles (admin, teacher, student) with zero reported critical failures.
- Designed and built a secure RESTful API from scratch with JWT authentication and role-based access control, handling all user sessions and protected routes.
- Owned the full stack: React + Vite + Tailwind frontend, Node.js + Express backend, PostgreSQL + Supabase database, deployed on Vercel and Railway.

George Angulo Fitness

Aug 2025 – Dec 2025

Frontend Engineer · React.js

- Shipped a live, multi-page brand website currently in production — integrated interactive maps and a transactional email API, reducing client communication friction directly from the site.
- Delivered complete technical documentation covering architecture and component specs, enabling future maintainability without developer handoff sessions.

Concentrix

Nov 2025 – Dec 2025

Technical Support Representative

- Resolved technical queries in a high-volume environment with strict compliance and case-logging standards.

PROJECTS

Aula Joven — Live Education Platform

React · Node.js · PostgreSQL · Supabase

Production platform with 150 daily active users. Courses, attendance, grading, file uploads across 3 roles. Built and deployed solo. rodrixdere.com

Mundo Fit — E-Commerce

React · JavaScript

Gym equipment storefront deployed on Netlify. github.com/rodrixdere

PYP Media CR — Corporate Website

React · GSAP · Tailwind CSS

Brand site for a Costa Rican Digital Signage company (official Nsign TV partner). Built solo, deployed on Vercel. pypmedia.vercel.app

EDUCATION

Universidad Latina de Costa Rica

2021 – 2026

Bachelor of Science in Software Engineering

Degree approved — diploma in process · English C1+ (Advanced)
